Twist 350

GLOBAL ACCESS

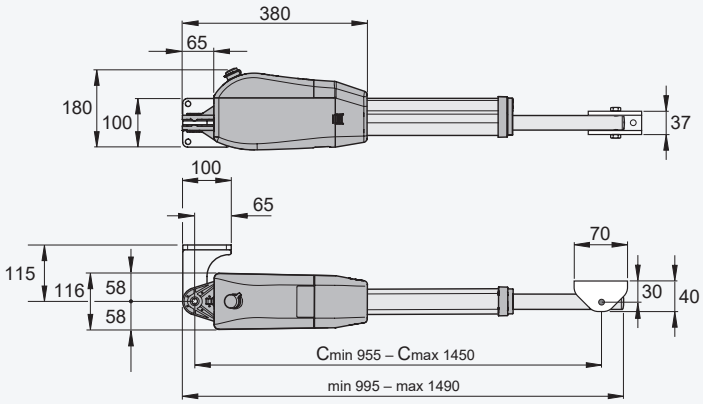

POWERFUL
24V Heavy Duty, Swing Gate Operator

For gates up to 4m

SOMMER

Made in GERMANY

- Suited to residential or condominium use
- Easily adjustable, in-built limit switches
- Bolt on brackets - no welding required
- Patent, gear saving brake system that is able to withstand extreme forces
- Well suited for heavy gates and/or wind loaded gates
- Suitable for solar applications
- Automatic locking, prevents the gate from being pushed open manually
- Easy to activate manual release function via a key
- 40% use frequency
